

Environmental Policy

Introduction

The environmental management is of great importance which Thai Beverage Public Company Limited and its subsidiary companies (“**ThaiBev**”) recognises and actively takes responsibility to reduce impacts on environment and society and to mitigate risks and resolve the problems from climate change.

Scope of the Policy

ThaiBev also encourages the participation of stakeholders in solving various issues in order to ensure the least possible negative impact on environment, society and climate change, in both short term and long term. The environmental policy sets out clear intentions and guidelines as follows:

1. Ensure ThaiBev’s compliance with local and national environmental legislation and other applied regulations.
2. Set the clear environmental target in 2020 for the reduction of water consumption, energy consumption, pollutant emissions, effluents and waste.
3. Continuously review and rectify ThaiBev’s environmental performance especially the matter which may affect society and climate change.
4. Implement the environmental policy and have the environmental management systems in accordance with international standards.
5. Support the sustainable development of packaging by using returnable glass bottles, recycled cullet and aluminium can, and eco-friendly packaging design.
6. Encourage in terms of continuously improving environmental management of its production process to prevent and mitigate impact on environment and society, and risks from climate change.
7. Share good environmental management, climate change management and best practices among ThaiBev.
8. Encourage the efficient use of natural resources in order to keep the balance of the environment and society in a sustainable manner.

ThaiBev realises that its operation process might impact environment and its sustainable value chain. Therefore, ThaiBev aims to create new effective technologies for the operation process together with building good relationships with its suppliers through environmental management.

ThaiBev will keep following up with and reporting the progress of its environmental management to stakeholders through sustainability report every year.
